SUPPLEMENT TO  
REPORT NO.

25X1

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS WORK IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

1. An underground factory for the production of unspecified types of rockets and electric motors is located in the forest which extends three kilometers east of Odra Port (Ostswine) along the road leading from Odra Port to Miedzyzdroje (Misdroy 054/141). The factory was built by the Germans. The factory area which is approximately three kilometers square is surrounded by a wire fence and is strictly guarded by Soviet troops. During the day there are no indications that work is being done in the area. Transports to and from the factory take place at night. Traffic on the Odra Port-Miedzyzdroje road is under Soviet control.
2. Newly constructed military barracks are located in a dense forest area one kilometer east of Miedzyzdroje. A range finder is under construction a short distance from the barracks in an easterly direction. The source is of the opinion that this range finder will be the largest on the Polish coast. Three batteries with 135 mm guns are located a few hundred meters east of the range finder. The barracks, the range finder, and the batteries are located on an elevated terrain. With good weather the range of visibility from this elevation extends to 30 kilometers.
3. A radar station is located in a small clearing in the woods 350 meters north of the village of Przytor (Pritter-054/L30) in the district of Odra Port. The station can be seen from Przytor.
